Diego Grados Bedoya

I am a quality-driven bioscience engineer and applied statistician using interdisciplinary approaches to address sustainable development challenges focused on soil-crop-environment interactions, agroecosystems analysis, and resource use efficiency. I have experience working on international research projects with diverse partners in a multidisciplinary context (Belgium, Colombia, Cuba, and Peru). My ability to work on different problems is supported by my analytical, technical, and communication skills. Throughout my career, I have also cultivated my enthusiasm for the creation of integrated solutions, focusing on the data analysis, modeling, and visualization.

Personal Data

Address: 30/0102 Verbindingslaan, Leuven, Belgium
Phone: (+32) 485 02 20 07
Email: diegogradosb@gmail.com
Web: https://diegogradosb.github.io/

Relevant Experience

Jan 2020 - Mar 2020
Postdoctoral Researcher - *KU Leuven*, Leuven - Belgium
Divison of MeBioS - Biosystems Department - Faculty of Bioscience Engineering
- Dissemination of research results in seminars, workshops, and peer-reviewed journals.
Reference: Prof. Dr. Eddie Schrevens

Apr 2016 - Dec 2019
PhD Researcher - *KU Leuven*, Leuven - Belgium
Divison of MeBioS - Biosystems Department - Faculty of Bioscience Engineering
- Developing of multi-target and system modeling methodologies for the agroecosystems' sustainability assessment.
- Dissemination of results in seminars, workshops, peer-reviewed journals, and international conferences.
- Mentoring and supervision of BSc and MSc thesis students in Peru (UNALM and UNCP) and Belgium (KU Leuven).
Reference: Prof. Dr. Eddie Schrevens

Nov 2014 - Apr 2019
Research Assistant - *VLIR/UOS-UNALM Project*, Lima - Peru
Strengthening of Smallholder Horticultural Systems Subproject
- Co-leading the study of soil-crop-environment interactions in the Peruvian Costal Desert.
- Installation of soil, meteorological, and irrigation equipment.
- Design and installation of agricultural experiments under drip irrigation systems.
References: Prof. Dr. Eddie Schrevens, Prof. Dr. Guido Wyseure, Prof. Dr. Jan Diels

Sep 2013 - Dec 2018
Research Officer - *VLIR/UOS-UNALM Project*, Junin - Peru
Sustainable Agriculture in the Central Peruvian Andes Subproject
- Leading the design and installation of agricultural experiments under rainfed conditions.
- Implementation of rational databases, development of soil-crop models and advanced statistical techniques.
- Analysis and evaluation of agroecosystems using participatory approaches.
References: Prof. Dr. Eddie Schrevens, Prof. Dr. Sady García

Feb 2013 - Apr 2019
Research Officer - *VLIR/UOS-UNALM Project*, Junin | Lima - Peru
Drone Technology in Agriculture Subproject
- Leading the feasibility study for uses of drone technology in agroecosystems.
- In charge of drone flights in Peruvian's Andes and Arid regions and the implementation of GIS databases.
- Development of mathematical and statistical techniques for land use classification and field experiments.
References: Prof. Dr. Eddie Schrevens, MSc. Dries Raymaekers

Jan 2012 - Dec 2018
Research Officer - *VLIR/UOS-UNALM Project*, Junin - Peru
Watersheds Management Subproject
- Leading the study of soil-crop-environment interactions and hydrology in the Peruvian Central Andes.
- Installation of soil, climatological, and hydrometric equipment.
- Implementation of databases, application of hydrological models, and assessment of rainfall-runoff relations.
References: Prof. Dr. Eduardo Chávarri, Prof. Dr. Guido Wyseure

Education

Apr 2016 - Dec 2019
PhD in Bioscience Engineering, *Mechatronics, Biostatistics and Sensors* - KU Leuven, Belgium
Thesis Title: "Multi-target methodologies for the improvement of agricultural systems research - *Study cases at system and field level*". | Advisor: Prof. Dr. Eddie Schrevens

Jan 2007 - Dec 2011
BSc in Agricultural Engineering, *Water Resources* - Agrarian National University La Molina , Peru
Honor Thesis Title: "Analysis of flood peaks in small Andean watersheds, Junin Department, Peru (2011-2012 Period)". | Advisor: Prof. Dr. Eduardo Chávarri

Teaching Experience

FA 2017 - 2019 Applied Multivariate Statistical Analysis - Master in Bioscience Engineering, **KU Leuven**
Graduate Teacher Assistant: Data visualization and manipulation, matrix algebra, R programming. Diverse multivariate techniques: ordination, cluster analysis, and discrimination.
Professor: Dr. Eddie Schrevens

FA 2019 Biological Production Systems - Bachelor in Bioscience Engineering, **KU Leuven**
Undergraduate Teacher Assistant: Review sessions to assess soil-crop-environment interactions of diverse agroecosystems. Mathematical modelling of agroecosystems.
Professor-Coordinator: Dr. Eddie Schrevens

SP 2016 Ecosystems Modelling - Master in Bioscience Engineering, **KU Leuven**
Graduate Teacher Assistant: Introductory statistical concepts, data visualization and manipulation, R programming. Mathematical modelling of agroecosystems.
Professors: Dr. Eddie Schrevens, Dr. Herman Ramon

Fellowships

2020 **FONDECYT-CONCYTEC** Research Grant (5 500€)
2016 - 2019 **VLIR/UOS-UNALM** PhD Fellowship (82 000€)
2013 | 2014 | 2015 **VLIR/UOS-UNALM** International Scholar Fellowships (67 000€)

Languages

English: Full Professional Proficiency
French: Limited Working Proficiency
Italian: Elementary Working Proficiency
Spanish: Native/Bilingual

Technical Skills

Programming R, MATLAB, Python, FORTRAN
Markup Markdown, LaTeX
OS Microsoft Windows, Linux
Other HYDRUS, DSSAT, RStudio, SAS, Office, HPC, QGIS, GRASS GIS, Git, GitHub
